

Town Recommends Caution Regarding Telephone Survey

The Town of Pelham is alerting residents to be cautious of a telephone survey that is purportedly asking residents misleading and inaccurate polling questions about the municipality.

Residents have reported being contacted via telephone by a polling firm asking deceptive and inaccurate questions regarding political figures, Town of Pelham operations, and capital projects.

The Town of Pelham wishes to notify residents that this poll is not one being conducted nor commissioned by the Town and urges residents to exercise caution when being approached for unsolicited personal information.
